Please register in advance to save a spot
via mail or Instagram.

SABAR

Dance Workshop with Nago Koité

Dance lessons with Nago bring the whole body into flow and harmony, making you happy and energized.

Nagos' teaching is characterized by a deep-rooted understanding of his culture, music and passion for teaching traditional dances. His movements are aesthetic, soft, clear, centered - simply beautiful. The choreographies he puts together have a very harmonizing effect.

A special experience is his teaching of Sabar - a special "advertising dance" of the men and women in Sénégal, to which a group of drummers play polyrhythmically.

Nago has been teaching in Europe for almost three decades now. His great energy, charisma, openness and presence, his experience and his deep understanding of people are expressed in the special quality of his teaching.
